CURTAIN CALL

Take a Bow.

LOOK BOOK

The Curtain Rises on Your Bathroom.

Every bathroom has a quiet hour: the bath at the end of a long day, the shower that starts a new one. Too often the room is plain white tile and a plastic liner, and the hour goes to waste.

A STUDIO4209 shower curtain changes the scene. Original artwork, in deep jewel color and silver light, hangs from your rod like a painting that moves. Draw it back and the performance begins.

COLOR

Our palette runs through saturated teal, midnight navy, ruby, emerald and violet, all set against polished silver. In a plain bathroom the color glows. Each curtain is a one-of-a-kind artwork, never a repeating pattern, so no two bathrooms look alike.

FABRIC

The artwork is printed edge to edge on a soft, fine-woven fabric that drapes in long, graceful folds. It falls straight and full, and the image keeps its detail in the pleats.

DURABILITY

The print is built to hold its color through steam, splashes and regular washing, so the curtain looks the same next year as it does the day it arrives.
